

/home/itain/QtProjects  
/logic\_calculator/inputeditor.h

```
graph TD; A["/home/itain/QtProjects  
/logic_calculator/inputeditor.h"] --> B[QStringList]; A --> C[QLineEdit]; A --> D[QMessageBox]; A --> E[QMap];
```

The diagram illustrates the dependencies of the header file `/home/itain/QtProjects/logic_calculator/inputeditor.h`. It features a central gray box at the top containing the file path. Four blue arrows originate from the bottom of this box and point to four separate white boxes below, each representing a Qt widget class: `QStringList`, `QLineEdit`, `QMessageBox`, and `QMap`.

QStringList

QLineEdit

QMessageBox

QMap
